

NEROTILES

Laminates for False Ceiling & Raised Flooring

INTRODUCTION

Nerotiles is a brand manufactured by Salco Laminates Industry, which is a leading manufacturer of high-quality laminated boards, designed specifically for false ceiling and raised flooring applications.

With a commitment to innovation, durability, and aesthetics, we have been revolutionizing the way false ceilings and raised flooring are applied.

Our mission is to provide innovative solutions that enhance the beauty, functionality, and sustainability of spaces. We strive to exceed customer expectations by delivering superior products crafted with precision and care.

OUR PRODUCTS

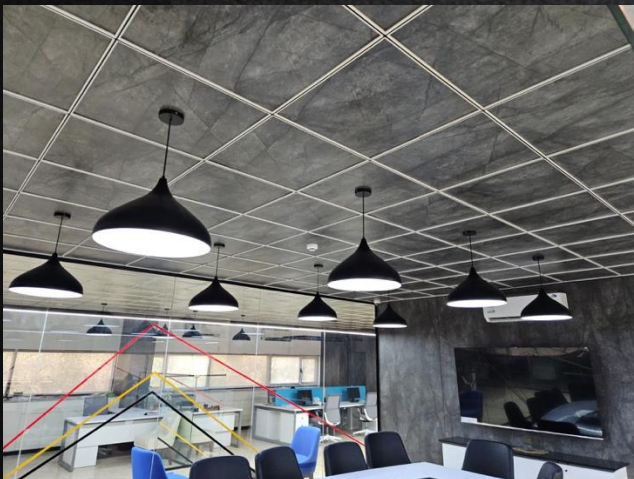

Our product line includes:

False Ceiling Collection

Engineered to withstand the rigors of diverse environments, our laminated ceiling tiles offer unparalleled durability and aesthetic appeal.

Available in a variety of designs, textures, and finishes, they provide versatility for any architectural style or interior concept.

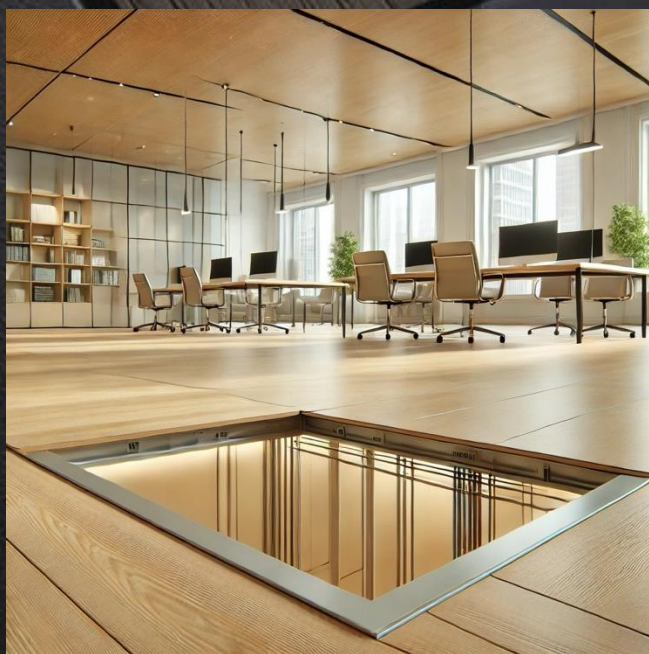

NEROTILES

Raised Flooring Collection

Our laminated flooring tiles embody both, resistance and timeless elegance. With an extensive array of designs, textures, and finishes, they present limitless possibilities to enhance any architectural style or interior concept, offering functionality, durability and aesthetic appeal.

Customized Solutions

Understanding that every project is unique, we offer customized solutions to meet specific design requirements. Our team collaborates closely with clients to develop tailor-made laminated tiles that complement their vision and exceed their expectations.

Sustainable Materials

Committed to global environmental standards, we prioritize the use of sustainable materials in our manufacturing processes. Our laminated tiles and false ceiling are crafted from eco-friendly resources, ensuring minimal impact on the planet while maximizing longevity and performance.

COMMITMENT TO QUALITY

We adhere to stringent quality control standards throughout the production process to ensure that every laminated tiles meets our specifications.

From raw material selection to final inspection, we maintain uncompromising attention to detail to deliver products of high quality and reliability.

Our products are proudly manufactured in the Kingdom of Saudi Arabia and our factories are certified for the ISO 9001 (Quality Management System), the ISO 45001 (Occupational Health and Safety Management System) and the ISO 14001 (Environmental Management System).

NEROTILES

AREA OF USE

Our laminated raised flooring and false ceilings are designed to meet the versatile needs of modern commercial and industrial environments.

Residential- Offices- Data Centers- Retail Spaces

In residential spaces, these products are ideal for modern homes, providing a sleek and functional finish to living areas, basements, and home offices.

The raised flooring allows for discreet and organized management of underfloor systems, such as heating, electrical wiring and data cabling.

Our false ceilings are perfect for enhancing the acoustic and thermal performance of any room, while also providing an elegant aesthetic that complements contemporary interior design.

NEROTILES
